Aged Care Packages

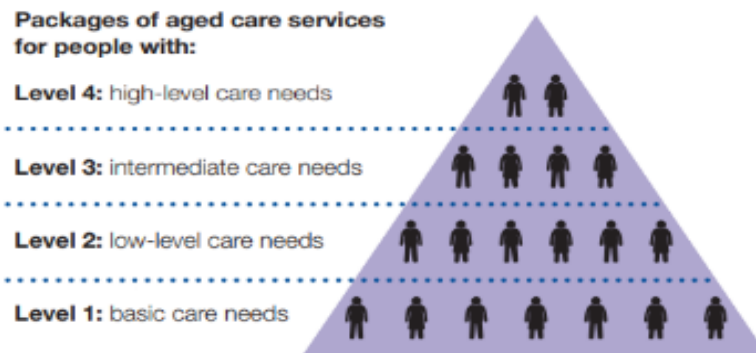

A home care package is a coordinated package of care and services to help you to live independently in your own home for as long as you can. Some people receive services through the Commonwealth Home Support Programme (CHSP) and are then assessed for a Home Care Package. Others will start with a Home Care Package.

The benefit of a Home Care Package is that your home care provider will work with you to:

- Choose care and services that best meet your needs and goals
- Manage your care and services

Aged Care Package Information

There are four levels of Home Care Packages to help meet the different levels of care needs. During your aged care assessment, your ACAT assessor will discuss your current care needs and determine the best level to meet them.

Income-tested care fee:

If your income is above a certain amount, you will need to pay an income-tested care fee to contribute to the cost of your care. The Income-tested fee is an extra contribution that is determined through an assessment conducted by Services Australia, and is in addition to the basic daily fee. This fee is then deducted from the Government subsidy paid to us by Services Australia.

Full pensioners do not pay an income-tested care fee. If you are required to pay this fee a letter will be sent directly from Services Australia.

Care Management and Package Management fees from 1 July 2023:

Golden Glow charges for care management of your package – this covers any changes in care planning, reassessment, liaising with other services and referring to allied services.

We also charge a package management fee.

These will be deducted from the funds at the end of each month.
